

15 & 16 FEBRUARY

Criteria Lash lifting / Lash lamination	
<ul style="list-style-type: none"> <li>Bend: depending on the volume of eyelashes. It is necessary to choose the optimal size and bend of the silicone eyelash curler (max points 10)</li> </ul>	
<ul style="list-style-type: none"> <li>Smoothness of bend: Along the entire length of natural eyelashes, there should be a smooth bend without creases and deformation (max points 10)</li> </ul>	
<ul style="list-style-type: none"> <li>Percentage of curled lashes. 100% of natural eyelashes should have a bend after the procedure. If any lashes don't curl, points should decrease (max points 10)</li> </ul>	
<ul style="list-style-type: none"> <li>Direction. The principle of parallelism should be followed. All lashes should be curled straight; lashes must not cross-over making letter "X" effect. When lifting is finished eyelashes can look straight (upwards) or sideways (towards temples) depending on eye shape (max points 10)</li> </ul>	
<ul style="list-style-type: none"> <li>Lifting angle. After the procedure, eyelashes should be well lifted in the root zone. Lashes must not sag or be bend upwards too much (max points 10)</li> </ul>	
<ul style="list-style-type: none"> <li>Inner corners. The presence of curl in the inner and outer corners is assessed. The absence of a curl gives the participant 0 points. Also in this criterion the direction of natural eyelashes is assessed (max points 10) each corner max 5</li> </ul>	
<ul style="list-style-type: none"> <li>Outer corners. The presence of curl in the inner and outer corners is assessed. The absence of a curl gives the participant 0 points. Also in this criterion the direction of natural eyelashes is assessed (max points 10) each corner max 5</li> </ul>	
<ul style="list-style-type: none"> <li>Eye Redness. If the redness of the eyes persist after the procedure penalty points should be added (max points 5) No redness is 5 points</li> </ul>	

<ul style="list-style-type: none"><li>• Hygiene. Your work area and products has to be decent (max points 5)</li></ul>	
<ul style="list-style-type: none"><li>• Tinting. Eyelashes should be evenly tinted along the entire length including the roots and tips (max points 10)</li></ul>	
<ul style="list-style-type: none"><li>• Colour of tinting has to ben intensive and suits to the model (max points 10)</li></ul>	
<ul style="list-style-type: none"><li>• Overall look. Each lash should look straight and be separated. Lashes shouldn't be clumped or stuck together (max points 10)</li></ul>	
<ul style="list-style-type: none"><li>• Clean work. There should be no tint on the skin or pieces of glue left on the eyelashes (max points 5)</li></ul>	
<ul style="list-style-type: none"><li>• Total maximum points 105</li></ul>
